- Heat index values near 100° to 104° today and Wednesday
- Heat Advisory is in effect until 9PM EDT tonight and again on Wednesday
- Isolated storms are possible but severe weather is not expected.

Important Updates

- Heat Advisory issued for Wednesday.

Maximum Heat Index Today

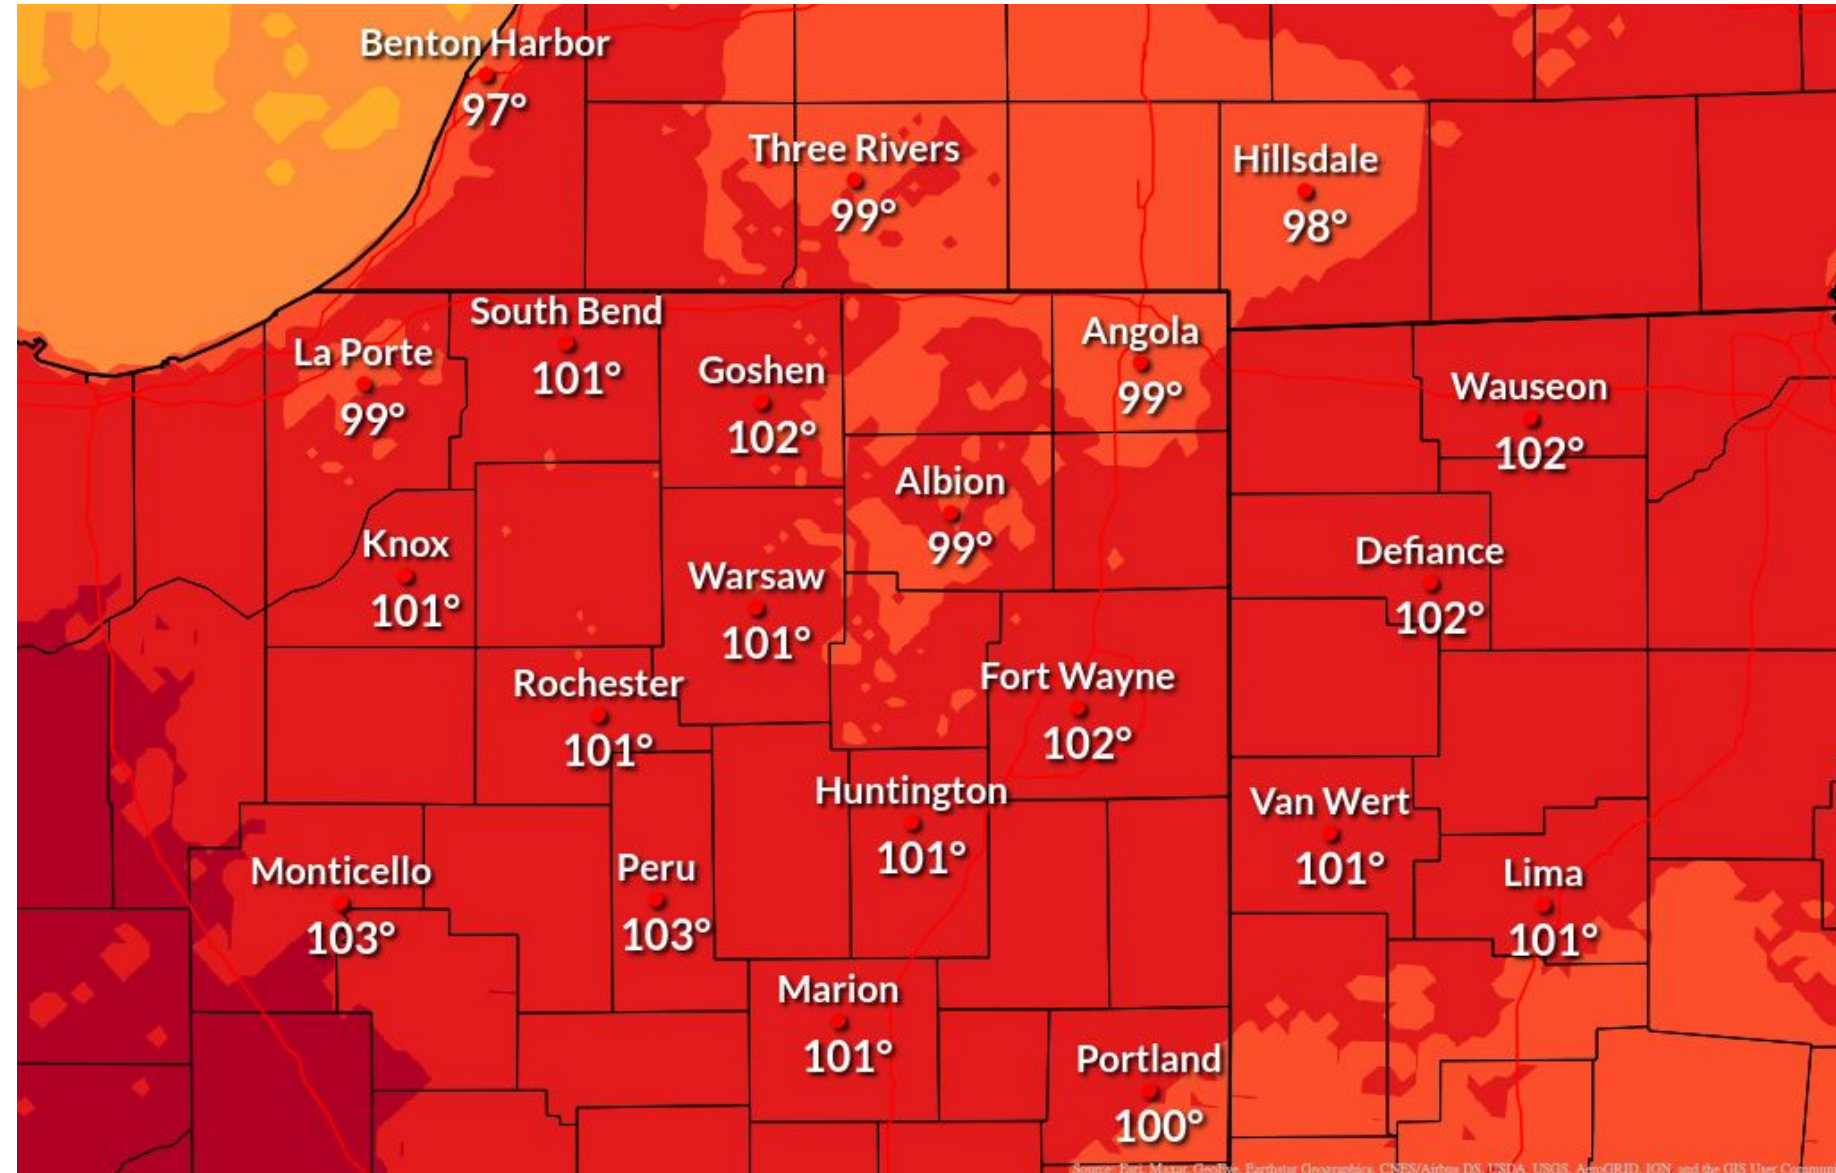

Hot & Humid Weather Ahead

August 24, 2021
3:34 PM

Overview

- Hot and humid conditions once again on Wednesday.
- Heat Advisory in effect from 11am until 9pm EDT.
- Isolated chances for thunderstorms; may provide brief, localized relief from the heat.
- Slightly lower heat index values later in the week but still well into the 90s and will cause impacts due to the cumulative effects.

Maximum Heat Index Wednesday

Staying Safe in the Heat

- ☀️ Limit Outdoor Activities
- ☀️ Drink Plenty of Water
- ☀️ Avoid Alcohol
- ☀️ Wear Light Clothing
- ☀️ Wear Sunscreen
- ☀️ Work Outdoors Early or Very Late in the Day
